

UNITED UNIFORM

MANUFACTURERS

COMPLETE PRODUCT GUIDE

2020

Since 1974 United Uniform Manufacturers Inc. has been proud in producing high quality, innovative, and made to order law enforcement uniforms. Having manufactured thousands of Class "A" uniforms for some of the most prestigious public safety agencies, such as the New York Police Department, the Los Angeles Police Department, the California Highway Patrol and the United States Secret Service, it's no wonder that when it comes to highly specialized, custom made, special duty uniforms, no other manufacturer can match our expertise.

United Uniform Manufacturers is uniquely positioned to provide the market with a broader and deeper range of products like: special duty uniforms, motor breeches, dress coats, tactical and bike patrol uniforms not currently available by any other uniform manufacturer. Being one of the largest uniform manufacturers on the West Coast and centrally located in Corona, California, with over 3,000 employees in our domestic and international manufacturing facilities, we are committed to bringing new innovations to the market place. It is our aim to provide you with the next generation of uniform solutions, complimented with unparalleled quality and service.

- Height:** Stand straight against the wall without shoes. Make a mark level with the top of the head. Measure from this point down to the floor.
- Neck:** Method 1- Measure a shirt collar that fits you well. Lay the collar flat. Measure from the center of the collar button to the far end of the buttonhole. Method 2- Measure around the neck where buttoned shirt would fit. Allow for two fingers width between tape measure and neck.
- Chest/Bust:** Measure just under arms across shoulder blades at the fullest part of the chest or bust and back, holding tape firm and level.
- Waist:** Measure over shirt but not over pants, around waist where you would normally wear pants or skirts. Keep the tape level and snug, but not tight.
- Hips:** Measure around fullest point of seat while standing, keeping the tape level.
- Sleeve:** With your arm relaxed at your side and slightly bent, measure from the center back of the neck to across the shoulder around point of elbow to wrist.
- Inseam:** Method 1- Measure a well fitted, similarly styled pair of pants (no jeans). Measure from the crotch of the seam along the inseam to the bottom of the hem. Method 2- Measure from bottom crotch to 1/2" to 1" above the top of your shoe heel. Styles worn with higher heels require extra length.

To ensure you receive the best possible fit, write down your measurements using the instructions above. Determine which size category you fall into by comparing your measurements with those listed in the charts below. If your measurements fall between two sizes, it is recommended you take the larger size.

Height equivalents: shorts up to 5'7", regulars are 5'8"-6'0", longs are 6'1" and taller.
